

Experience and competence

Contract manufacture of suppositories and liquids

We realise your requirements

Your complete provider for all aspects of suppository manufacture

You should expect more than just contract manufacture from a specialist in suppositories: we conscientiously look after all vital aspects of the complete manufacture of suppositories in plastic and aluminium packaging.

Your satisfaction is our objective

If required, we will procure all basic materials as well as taking care of packaging and analysis in our own laboratory, monitoring on-going-stability and helping to compile the product quality report.

Our 30 years of expertise means that we are also able to realise our custom-made range of products and services for complete suppository production, including qualification and process validation.

Talk to us about your specific requirements

Because we have more than 30 years experience in the manufacture of suppositories, we can make extensive expertise available to our customers and provide the right answer to a wide range of questions. Our qualified and experienced staff are ready to help you at any time.

Put us to the test if you have questions regarding formulation, manufacture or quality control. We are equipped for any type of challenge and able to react flexibly to new requirements at any time.

We will conscientiously take care of every important aspect of complete manufacture of suppositories in plastic and aluminium packaging.

Competence on the basis of diversity

Benefit from our high quality standard:

Manufacture, testing and storage is carried out in accordance with GMP guidelines, in state-of-the-art production facilities.

Our machines and moulds allow for a wide variety of product variants. Together with CP-CITOPAC GmbH, we have our own production facilities for moulded packaging for suppositories, as well as an in-house machine construction facility.

Our product concept covers all aspects of suppositories and offers:

- More than 30 years of experience
- Efficient and flexible production
- Complete manufacture
- Strict quality controls
- Manufacture, testing and storage in accordance with GMP guidelines
- In-house production of moulded packaging for suppositories and machinery construction facility
- Management of complete suppository production processes including qualification and process validation
- Production of small quantities and trial batches
- On-going-stability in our laboratory

State-of-the-art production facilities

Contract manufacture of liquids

When it comes to liquids, we have specialised particularly in the contract manufacture of small and medium batch sizes.

By using a variety of product batching sizes and filling techniques, we are able to react flexibly to our customers' requirements, from the filling of small quantities through to online production of larger-scale orders.

To ensure impeccable quality, our filling packaging facilities comply with the latest GMP guidelines.

Our Liquida product concept offers you:

- Efficient and flexible production
- Strict quality controls
- Manufacture, testing and storage in accordance with GMP guidelines
- Complete manufacture including labelling and packaging
- Production of small quantities and trial batches

Products

- Solutions
- Suspensions
- Emulsions

Filling quantities

- 10 ml – 50 ml
- 100 ml – 250 ml
- 500 ml

Filling techniques

- Gear wheel pump
- Vacuum pump
- Piston pump

Batching sizes

- From 50 to 1500 litres

Services

- Labelling
- Banderolling
- Shrink wrapping
- Inkjet coding

AMCAPHARM and **CP-CITOPAC** is an association of companies which combines a broad range of expertise and experience in the contract manufacturing of suppositories and liquids, the production of moulded unit-dose and suppository packaging, and machinery for its processing for the pharmaceutical industry.
